- B. "Part-time faculty employees have an official faculty appointment, receive a salary, and participate substantially, but less than full-time, in the program of an educational unit. The dean makes the final decision on appointments of part-time faculty employees at any rank. The appointment shall be for one year or other stated period not to exceed one year, subject to renewal. Appointees are not eligible for tenure, sabbatical leave, or membership in the University Senate. Appointees are not eligible for University contributions toward employee benefits, but may participate at their own expense in certain University benefit programs. Faculty membership, with or without voting privileges, may be extended to part-time faculty employees by the faculty of educational units to which they are academically appointed." (AR 2:1-1) Part-time faculty employees with an FTE of at least .75 are eligible for University contributions toward employee benefits.
- C. "Adjunct Title Series faculty are individuals employed by a non-University agency or by the University with primary appointments in non-faculty positions, who contribute significantly to the instructional or research missions of the University. An appointee in the Adjunct Series shall not be eligible for tenure, sabbatical leave, employee benefits, or election to the University Senate. However, an appointee who is a full-time employee of the University and has a primary appointment in a non-faculty position shall be entitled to employee benefits

Such faculty employees usually are self-employed or hold full-time positions with other institutions and agencies. The constituent appointments relating to a joint appointment may be processed simultaneously or at different times; however, each appointment, reappointment or promotion, shall be processed independently and considered on its own merits. An individual's academic rank, though usually the same, may differ in the constituent appointments. The possibility of tenure applies only to the primary appointment. In case of termination of the non-primary appointment(s) leaving only the primary appointment for a full-time faculty member, the individual's assignment associated with the primary appointment shall become full-time. When an individual under consideration for appointment to an administrative position is also to be considered for a faculty appointment, recommendations of committees on the two respective appoints shall be developed independently on their respective merits, in accordance with the respective established appointment procedures.” (GR X)
