

## University of Kentucky, College of Nursing

### Dean's Faculty Travel Policy

As budget allows, the College of Nursing will try to provide support to Faculty travel for professional development opportunities based on tiered priorities and a match with the strategic plan of the College.

The following types of travel will be prioritized:

- **Category 1:** Primary/Lead Podium Conference Presentation (Primary or Senior Author)  
**(Up to \$2000) – To receive funding, you must provide a letter/email from the conference with acceptance of abstract**
- **Category 2:** Poster Presentation / Panel Presentation / Association Executive Leadership  
**(Up to \$1,500)**
- **Category 3:** Other Faculty / Professional Development and Travel, when approved  
**(Up to \$1,000)**

The College will only support one travel/professional development per faculty member during the year. Due to budget limitations, not all faculty travel requests will be awarded.

This policy does not apply to grant-funded travel, start-up funding, endowment-supported travel, or Dean-invited travel. Use these funds first before using the prioritized funding.
