Experience

August 2025 – April 2026

University of Kentucky College of Nursing, Lexington, Kentucky – *Clinical Instructor*

- Guided clinical groups of 8-9 students in health-promotion settings, teaching patient-safety fundamentals, hospital-room orientation, and essential clinical workflows.
- Instructed students in foundational assessment skills and provided timely, constructive feedback to strengthen accuracy, confidence, and clinical judgment.
- Supported students in developing nursing care plans by coaching them through appropriate diagnoses, evidence-based interventions, and prioritization of patient needs.

September 2022 – PRESENT

University of Kentucky Medical Center, Lexington, Kentucky – *Registered Nurse, Cath Lab*

- Management and stabilization of adult and pediatric patients pre and post cardiac procedures, including heart catheterizations, device insertions and other structural cases.
- Ensure proper post procedure education to patients with conditions such as coronary artery disease, pulmonary hypertension, valvular heart disease, atrial septal defects and peripheral vascular disease.

October 2022 – June 2023

Aya Healthcare, Kentucky – *Registered Nurse, Travel, Pediatric- Emergency Department*

- Transitioned to caring for the pediatric population, to further my nursing practice.
- Delivered tailored nursing care across the pediatric population enhancing the patient experience.

October 2021 - October 2022

AYA Healthcare, South Carolina, North Carolina, Georgia – *Registered Nurse, Travel – ED*

- Provided emergent and immediate care to varied patients with complex histories and comorbidities.
- Adapted to the needs of facilities and departments with low resources and staff to ensure patient care was not delayed.

May 2019 - October 2021

University of Kentucky Medical Center, Lexington, KY – *Registered Nurse- ED*

- Prioritized and delivered high-quality care to multi-acuity patients within a Level 1 Trauma Center and implemented evidence-based practices within the interprofessional team.
- Utilized multiple electronic charting systems for proper documentation of care delivered.

Leadership & Professional Development

Department Chair, Clinical Expertise Council (2021): Led initiatives to enhance clinical standards, promote evidence-based practice, and support staff competency.
